Building Digital & Strategic Solutions

High-Integrity Fabrication Procurement for the UK Heavy Industry, Defence & Energy Sectors

Your Specialist UK Partner for Supply Chain Resilience & Competitive Advantage

The Challenge: UK's most demanding sectors face a critical supply chain challenge: production bottlenecks, post-Brexit complexity, and intense pressure on project timelines and budgets. Relying solely on a constrained domestic supply base is a significant operational and commercial risk.

The Solution: The “UK Shield” – A Managed, Resilient European Supply Chain

Neoture Group acts as a strategic **UK-based** partner, providing seamless and secure access to a network of elite, **ASME-certified** European (Polish) fabricators. We transform your supply chain from a source of stress into a source of competitive advantage.

We manage the entire procurement and fabrication process under a single, secure **UK** legal and financial framework, guaranteeing that every component meets your exact specifications and quality standards.

Core Capabilities & Quality Guarantees

- **ASME “S”** Stamp Certified Fabrication: Specialising in power boilers, complex pressure piping, and advanced induction & cold pipe bending.
- Advanced Welding & Machining: All methods (TIG/MIG/SAW/MMA) for components up to 100 tons.
- End-to-End Supply Chain Management: Full “door-to-door” project execution, including logistics, assembly, and final UK delivery.
- Integrated Quality Assurance: Full **NDT lab capabilities (ISO 17025)** and comprehensive heat treatment processes embedded in the workflow.
- Absolute Financial Security: All payments and contracts are managed under a UK framework via an **FCA-regulated Escrow** system.

Your Strategic Advantage with Neoture Group

- Scale Production Capacity On-Demand: Eliminate bottlenecks without the capex of expanding your own facility.
- De-Risk Your Supply Chain: Gain access to a resilient, world-class European manufacturing base.
- Protect Project Margins: Leverage competitive European cost structures without sacrificing quality.
